USING THE 4HONLINE ENROLLMENT SYSTEM

Dear 4-H Family,

Alaska 4-H enrollment is online! With 4HOnline, families will be able to manage their 4-H enrollments using a web-based system instead of paper forms.

What is 4HOnline?

4HOnline is a secure online database that manages enrollment information for 4-H members and volunteers. All you need is a computer with internet access and a valid email address. The system works best with Firefox or Chrome web browsers.

Why is Alaska 4-H using 4HOnline?

4HOnline brings the 4-H community together and encourages involvement. Families can ensure their 4-H records are accurate; leaders can help manage 4-H clubs; and the local Extension office can focus on providing information and quality 4-H experiences for youth.

How does 4HOnline affect my Family?

Each family will need to complete their annual 4-H enrollment using the 4HOnline system. The local Extension office will then review and accept each member's enrollment after dues are paid.

When can I begin this process?

Alaska 4-H Enrollment begins October 1 for the upcoming 4-H year. Check with your local Extension office for more information.
